About Infocampus

Infocampus is a community of learners, educators, and industry professionals dedicated to creating a supportive and dynamic learning environment. Since 2009, we have specialized in IT and networking courses for both beginners and professionals, bridging the gap between theory and practice. Our mission is to prepare students for the evolving tech industry, making us a trusted choice for career advancement in technology.

Expert Instructors

Learn from certified professionals with 20+ years of experience.

Career Advancement Assistance

Receive personalized guidance to secure your dream job.

Global Certification

Unlock global career opportunities with our internationally recognized certificate, accepted by top employers and educational institutions world wide.

INMAP Infocampus Network Mastery Assurance Program

We proudly presents our premier course, INMAP to unlock IT success with INFOCAMPUS comprehensive training program, led by a 20-year experienced CCIE-certified trainer. Gain industry-leading skills in networking (CCNA, CCNP, CCIE), security (Palo Alto, Fortinet), cloud computing, and advanced technologies through real-world virtual labs. Enhance technical expertise and soft skills to excel in interviews, presentations, and teamwork, ensuring you're job-ready for the competitive IT industry.

Program Highlights

01

Mastering in Network Engineering :
Master the essentials with CCNA, CCNP and CCIE (Enterprise Infrastructure).

02

Specializing in network security:
Get hands-on experience with 2 Firewalls.

03

Data Flow and Data Load Balancing :
F5 Load Balancer

04

Server & Cloud computing implementation & management :
MCSA and Cloud Computing basics.

05

Replicated Virtual Work Environment:
Simulated work environment that mirrors real-world conditions, allowing hands-on experience in identifying issues and troubleshooting effectively.

06

Communication & Soft skill training.

07

24/7 Lab Access: Practice at your convenience with 24/7 access to our fully-equipped labs, providing you with continuous learning opportunities

Mastering in Network Engineering

CCNA (Cisco Certified Network Associate)

CCNA is an entry-level information technology (IT) certification issued by networking hardware company Cisco. The CCNA is designed to validate your knowledge on fundamental networking concepts often requested in networking roles in IT positions.

CCNP (Cisco Certified Network Professional)

CCNP is a professional-level certification issued by networking hardware company Cisco. CCNP validates skills in designing , implementing and troubleshooting local and wide area networks.

CCIE (Cisco Certified Internetwork Expert)

CCIE is an expert-level certification issued by networking hardware company Cisco. CCIE validates skills in designing , implementing and troubleshooting complex enterprise networks.

Mastering in Network Security

Fortinet Firewall

Fortinet Firewall is a network security system designed to prevent unauthorized access and protect networks from threats. It's a part of Fortinet's FortiGate security platform.

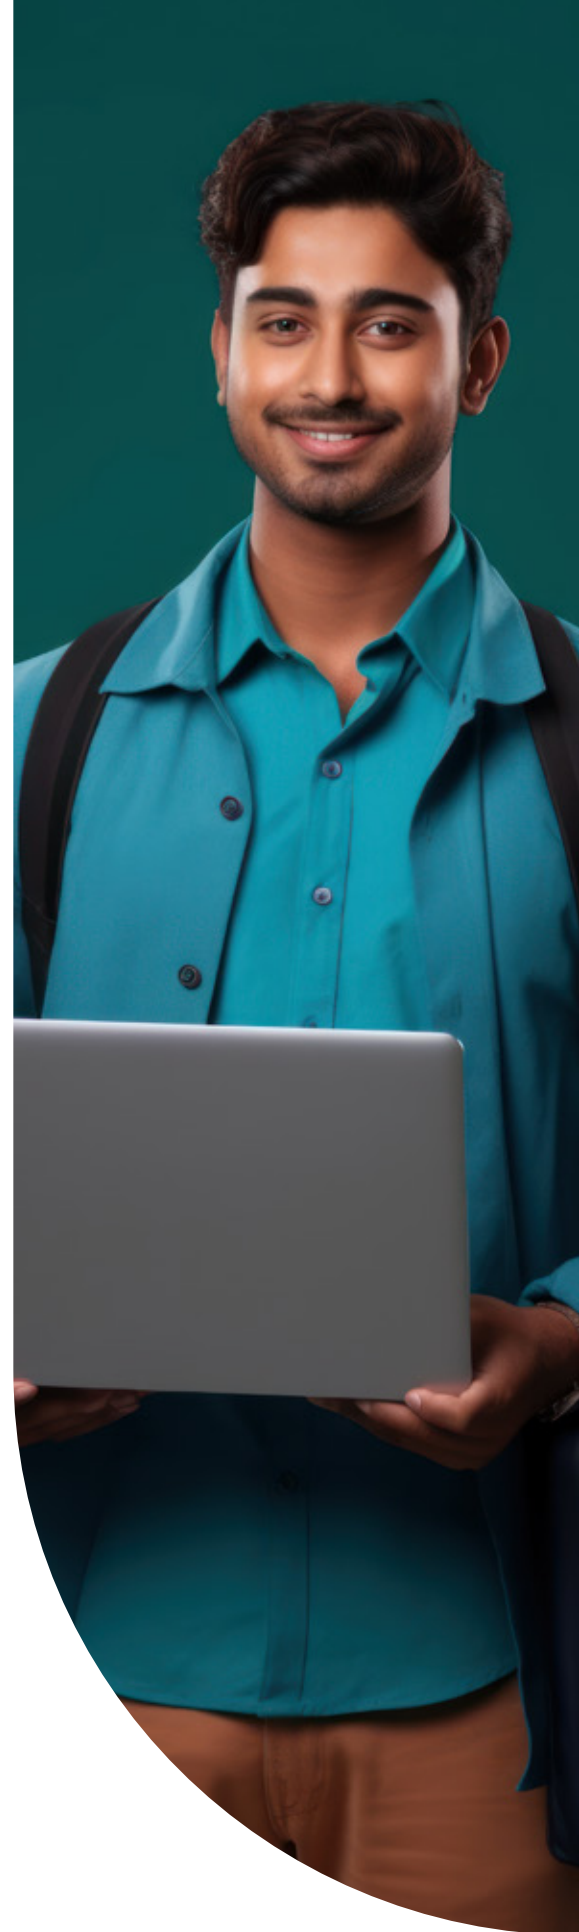

PaloAlto Firewall

PaloAlto Firewall is a next-generation firewall (NGFW) designed to protect networks from advanced threats. It's a part of PaloAlto Network's security platform.

Data flow & Data load balancing

F5 Load Balancer

Load Balancer is a device or software that distributes network traffic across multiple servers which ensures no single server becomes a single point of failure.

Server & Cloud computing implementation & management

MCSA (Microsoft Certified Solutions Associate)

Foundational knowledge in Microsoft technologies, focusing on server management, network fundamentals, database administration, and cloud services.

Cloud Computing

Cloud Computing enables on-demand access to scalable, flexible and secure computing resources(storage,processing,applications)over the internet, eliminating the need for local infrastructure and hardware.

Communication & Soft skill training

- Mock interviews
- CV preparation
- Language training
- Communication skill
- Personality development
